

## Animal Protection is put to the test again - a big challenge

We had told you about the current situation at the shelter. There are hardly any requests for adoptions of fosterlings and thus we had to close the gates for new arrivals. Our capacity is completely exhausted.

But it came as it had to come. Our biggest challenge is our latest new arrival. We didn't know if he would even make it. But there is a little fighter's heart in him: Vegas is his name. Read his story:

Vegas was hit by a car and the driver once again put his foot down and off he went.

Vegas was left badly injured. We took him in to the shelter and found that he could not move the back of his body. There is no fracture, but his nerves are badly traumatized.

The diagnosis is not good at the moment, but Vegas is a little fighter with a kind soul. We have decided to fight together with him. He gets daily physiotherapy, appropriate medication to re-address the traumatized nerves.

Vegas loves his fellow dogs, people, life. He cooperates perfectly with us and is always so sweet.

Vegas now needs our and your support so that we can give him a carefree life, despite a possible disability that will remain. We don't know here and now.

Please don't let us down during this difficult time - just as we won't let Vegas down. Please continue to help us with your donations for Vegas' medication, possibly a wheelchair. Please use the keyword: Vegas. Thank you from the bottom of our hearts!

We don't give up hope that one day he will find a home that is wheelchair or handicapped accessible and experienced for this purpose.

Vegas is 45 cm tall and weighs approx. 18 kg.
