

Hello, it's me, your Linus

Today I have to get in touch. I am a long-term resident at the shelter and I really like it there in the free run. I live in a pack with other older dogs and we always get along very well. Here I also have the security I need. A stable environment, no changes. I would like to stay here.

Unfortunately, I have been plagued by epileptic seizures lately, but the shelter supports me very well with medication. And especially with this disease, a stable environment is so important. My humans would like to continue to give me that.

I know that I am already a sponsor dog, but I don't know what it means.

Linus is a very likeable dog who never stands out, on the contrary. He prefers to live in the background, but also likes to sneak up when he suspects treats. We would like to continue to give him a carefree life and be able to give him all the medication he needs - even during this difficult time.

May we ask you for further support by sponsoring Linus again? If you are interested, please contact our Christiane, who is responsible for the sponsorships, at chkopacek@gmx.de.

Many thanks on behalf of Linus
