

## Visit to the animal shelter

During our last visit to the animal shelter, we noticed that there are hardly any functional leashes left in the shelter

Unfortunately, leashes are also donated that no longer guarantee safe functionality: defective fastening hooks, torn webbing, too short, too thin (more intended for cats)  
We had to dispose of many of the items that were sent to Greece at high transportation costs on site

For this reason, Janine offered to produce suitable leashes by hand:

The production costs amount to approx. **€ 8.00 per piece**. If we could send 50 pieces to Greece, the demand for the next time would be covered.

For this reason we ask you to make a donation to our account
