

Malina - thank you very much for your great commitment to the shelter

We received a request from Malina asking if we could imagine offering her a volunteer position at the Animal Protection shelter - and if we wanted to

Malina came to our attention through a lovely adoptive family Thank you for the recommendation

For almost 3 months, she helped the team and especially the dogs with lots of walks and cuddles

She even spent one day cleaning up a hiking trail on Aegina together with an island team and removing garbage

Dear Malina, now your time on the island is almost over and we all let you go with a little tear But your path will continue to lead you to other animals all over the world who are also in need of help Please let us know what happens next

In any case, we hope that you will leave a suitcase on Aegina and come to visit us again soon!

Your team from Animal Protection
