

2024 - our first full year with Suse ❤️❤️❤️

Seit dem 13.10.23 ist Suse nun bei uns.

Suse, Susi, Susli, Süßnase, Schnüffi (very rarely Stinktief, when she wants to eat disgusting things outside 😬) is the loveliest dog in the world. Imagine the best dog in terms of character - Suse is even better. ❤️

I don't know how Manuela Tillack-Lübke always manages it, but she has found us another dog that suits us perfectly.

Suse grew up in such a sheltered environment at her foster home in Greece that we really benefit from it. Many thanks for that! ❤️

Suse gets along with all living creatures that we meet - only mice have to be wary of her. 😬😬 She likes children very much. She is always respectful towards other dogs, rather reserved and never aggressive. She hardly ever barks, only when playing or when something is scary.

If she had to choose between adventure and the couch, she would definitely choose the couch. Our couch potato loves to cuddle. At the same time, she is very playful, has her Zoomies every day and loves to play with children or dog friends.

There is no more pleasant dog than her. Suse makes no difference in everyday life - on the contrary, she is a huge asset!

Unfortunately, there is still one small problem: Suse doesn't like driving at all. She is one of the few dogs who get sick when driving. Our outings are therefore usually limited. But as we live right next to a large wooded area and Suse is totally happy with our walks here, we've come to terms with it. Who knows, maybe she'll get used to it at some point. 🚗

In any case, we are more than grateful for our cuddle-baby 😊❤️ Hopefully she can stay with us for a loooong time. 🍀

Phibie and Fridolin were allowed to spend a fantastic 16 years...they are missed here very much... ❤️

We wish you all a happy new year! 🍷🍷🍷🍷

Another year full of happy moments with your furry friends! 😊
