

## Milk thistle - perfect support for the body

We have the opportunity to obtain high-dose milk thistle capsules (including silymarin) and would like to send/donate them to the dogs at the shelter who are suffering from leishmaniasis.

At the end of the year, we replenished the food stock for the shelter so that the account was very low at the beginning of the year.

We would be delighted if you could support us with the next delivery.

You are welcome to use the Aegean Dogs account for donations. You will receive a donation receipt at the end of the year:
