

Replacement is urgently needed

One of the tasks of an animal shelter is to work on laptops. These also only have a certain lifespan and the current one is now so old that a new one is needed. The speed of the old device also leaves a lot to be desired.

Over the years, the device has been used intensively for editing photos, videos and emails. The purchase of a new and faster laptop is therefore essential in order to be able to continue working creatively and productively.

For this reason, we are asking for donations to raise the necessary funds for the replacement. Any support is welcome and will help us to continue our work. Thank you very much for your help!

If anyone has a laptop to donate in kind, we would also be very happy to receive it!

Here is the donation account if you would like to support us:
